

General info about your private label bags

It is possible to produce and use your personalized bags. A private label bag has many advantages.

- You can adapt the print for your local market. In logos and language and in an appealing style
- It shows and enhances your connection to our company, creating trust and profile
- It allows for unlimited promotion in your area, independent from our own brands
- You decide when and what to change in the designs
- The bags and plates remain your property

We can help you in the set-up and production. Because the plates and bags are your property and cannot be used by us other than for you, they must be pre-paid. The plates are a 1 time investment and can be used for years *

Costs are charged 1:1 or can be paid directly to the foil producer. Production starts after your written confirmation and payment of the set-up costs.

Below is a general overview of the average costs for production. Actual costs and tally are always balanced after production, usually with your first order. A PFI is sent to be pre-paid based on below table before production.

Product	Avg. Approx. Cost
Desktop artwork REPRO pdf	€40/30 mnts
Print plates per color 50L*	€ 400,00
Print plates full color 50L*	€ 1.500,00
